Title : Local People's Legal Standing in Environment Law Enforcement on Environmental Impact Assessment (EIA)

Environmental impact assessment (EIA) is one of the pre-requisite for a business owner to start their own business and regulated on Law No. 32 year 2009 about environment protection and management, so it's an obligation to a business owner to taking account as many people as possible that can be impacted by the business. Unfortunately in the implementation business owner usually only taking account a few select people that are impacted in result the excluded often not informed and can't participate in the drafting of EIA. This negligence often lead to legal status of impacted people seems unimportant, therefore it is important to know the clarity of local people legal standing in Environment law enforcement on EIA

Key word : Environmental Impact Assessment, EIA, Environmental law Enforcement, law No.32 year 2009 about environment protection and management.
