

## FOREWORD

This thesis is written in order to fulfil one of the requirements to obtain a Bachelor of Architecture degree in the Architecture Study Program, Faculty of Engineering of the Universitas Agung Podomoro.

The writing of this thesis was able to be carried out due to the help from various parties. For this reason, I would like to express my gratitude to all those who have contributed in making this paper. On this occasion, I would like to thank the following parties and individuals:

1. Mr. Sani Heryanto, S.T., M.Sc. as the Dean of the Faculty of Engineering.

2. Mr. Adli Nadia, S.T., M.T. as the Head of the Architecture Study Program and Head of the Architecture Design Studio 8 for your guidance and inputs in the making of this thesis.

3. Mrs. Carolina S.T., M.Arc. as my supervising lecturer, for your guidance and input in the making of this thesis.

4. Lecturers and staff of Universitas Agung Podomoro who have provided me with knowledge and guidance throughout my study at Universitas Agung Podomoro.

5. My parents who have given their utmost support throughout my studies.  
6. All my classmates which has helped me in discussions, peer review, and insightful inputs towards design and the writing of this paper.

7. All other parties which I cannot state one by one who has helped in the completion of this paper

I am aware that there are still many deficiencies in this thesis. Therefore, I accept all suggestions and criticisms from the reader for improvements toward the paper. I hope that this thesis can be useful and inspiring for the reader.
