

ABSTRACT

Name : WILLIAM IBRAHIM
Study Program : URBAN AND REGIONAL PLANNING
Title : PARTISIPASI MASYARAKAT DALAM PENATAAN
KAWASAN BEBAS COVID 19 DI RT 11 / RW 06 KELAPA GADING

This study is about community participation in building a COVID 19 free area in RT 11 / RW 06, because community participation is the key to preventing the spread of the COVID 19 outbreak. This study also aims to determine the type and extent of community participation in the design of a COVID 19 free area in RT 11 / RW 06. Primary data is a method of collecting data from interviews with the heads of RW / RT and distributing questionnaires in RT 11 / RW 06 Kelapa Gading. Secondary data, data from journals that discuss participatory planning in the design of COVID 19 free areas. This research method is a quantitative descriptive analysis method using a questionnaire using content analysis and the Likert scale method. This study examines community involvement in the design of a COVID 19 free area in RT 11 / RW 06. This study concludes that community participation in the arrangement of a COVID 19 free area in RT 11 / RW 06 Kelapa Gading is active at 37.65%. The suggestion for this research is that RT 11 / RW 06 can create a new program to increase community participation in RT 11 / RW 06.

Keywords: community involvement, COVID 19 free area
