APPENDIX 3

INTERVIEW RESULT

1. Mr. Aristama as The Secretary of Pahawang Island Interview Result:

- The peak of Pahawang Island tourism was from 2016 to 2018 and decreased after the Covid-19 era. And it's been increasing lately but not as much as usual.
- Increasing community empowerment started with the existence of a very honorable person named Mr. Ju. He was the one who started conservation education by relying on community participation from child to adult.
- The main livelihoods of Pahawang Island are tourism, fisheries, and agriculture.
- There are 4 types of sea urchins owned by Pahawang Island and they are most likely to increase economic growth.
- Conservation activities on Pahawang Island are mangrove nurseries, planting coral reefs, and beach cleaning.
- Other uniqueness of Pahawang Island such as cultural tourism, community tourism, mountain peaks (napak tilas), and mangroves forest of 1020 ha.

2. Mrs. Badrinah as Local Resident

- The most influential tourist on the island of Pahawang is Mr. Ju. He founded schools and the community can be educated in environmental conservation and community empowerment.

3. Mr. Bastian as Boat Captain/Owner

- For weekdays many tourists come through travel agent services, and for weekends they usually travel privately.
- How to use snorkeling and diving equipment in the right way.

4. Mr. Ijal as a Fisherman and Snorkeling Areas Guard

- There are several snorkeling areas, and each has its own guard.
- There is a snorkeling area that is the biggest and provides other water sports such as banana boat, donuts etc.

5. Ms. Widya and Ms. Salwa as Tourists

- Pahawang Island has a very beautiful underwater beauty. This can be seen from the clarity of sea water, coral reefs, and anemones.
- They hoped that Pahawang Island could be highlighted more so that more visitors could come because Pahawang Island was highly recommended.
